

Workshop

Networks, Complexity & Competition

2-4 May 2008, Hotel "PARK", Bled, Slovenia

Keynote: **Peter Schuster** (Institute for Theoretical Chemistry, Vienna, Austria)
Simone Alfarano (Department of Economics, University of Kiel, Germany)

Speakers: **Panos Argyrakis** (Greece)
Ulrich Behn (Germany)
Zdzislaw Burda (Poland)
Igor Grabec (Slovenia)
Rudolf Hanel (Austria)
Kimmo Kaski (Finland)
Renaud Lambiotte (Belgium)
Jorge Pacheco (Portugal)
Peter Richmond (Ireland)
Dejan Stokic (Austria)
Bosiljka Tadic (Slovenia)

Vladimir Batagelj (Slovenia)
Ginestra Bianconi (Italy)
Anuska Ferligoj (Slovenia)
Abert Diaz-Guilera (Spain)
Janusz Holyst (Poland)
Janos Kertesz (Hungary)
Rosario Mantegna (Italy)
Milan Rajkovic (Serbia)
Geoff Rodgers (UK)
Piotr Swiatek (Belgium)
Stefan Thurner (Austria)

The workshop Networks, Complexity & Competition will focus on the quantitative study of complex dynamical systems, primarily using concepts developed in the network theory, and applications of these concepts in econo-physics, bio-informatics, nano-sciences and social sciences. The Workshop is a part of the COST P10 Action "Physics of Risk".
